

## 2.4 Template for Denominator Data

Please send denominator data with every new year of case data.

<b>Centre:</b>	
<b>Year</b>	
<b>Live births</b>	
<b>Stillbirths</b>	
<b>TOTAL</b>	
<b>Please give definition of stillbirths:</b>	
<b>Maternal age distribution*:</b>	
Mother <20	
Mother 20-24	
Mother 25-29	
Mother 30-34	
Mother 35-39	
Mother 40-44	
Mother 45+	
Mother 35+	
Mother 40+	
Unknown	
<b>TOTAL**</b>	
*Please complete all / as many as possible of the age categories above	
** Are stillbirths included in the maternal age distribution? (please delete as appropriate) Yes/No	
<b>Monthly distribution:</b>	
January	
February	
March	
April	

May	
June	
July	
August	
September	
October	
November	
December	
<b>TOTAL*</b>	
<p>*Are stillbirths included in the distribution by month?          (please delete as appropriate) Yes/No</p>	

The denominators should be sent in a .csv file. The following columns should be used in the .csv file for transmitting aggregate data. The file will be used by the Central Registry for importing the data in DMS:
