

EUROCAT Data Management Software

Manage data
Denominators

Add or edit denominators

Introduction

- The section *Home>Manage data>Denominators* allows to **add, modify or delete denominators** manually.
- It is possible to **search through** the denominators for centres and years ([page 4](#)).
- You can **edit** existing denominators ([page 5](#)), **add new** denominators from an empty form ([page 6](#)) or **delete** existing denominators ([page 7](#)).

Table of contents

1. [Search denominators](#)
2. [Add denominators](#)
3. [Edit denominators](#)
4. [Delete denominators](#)

Manage denominators

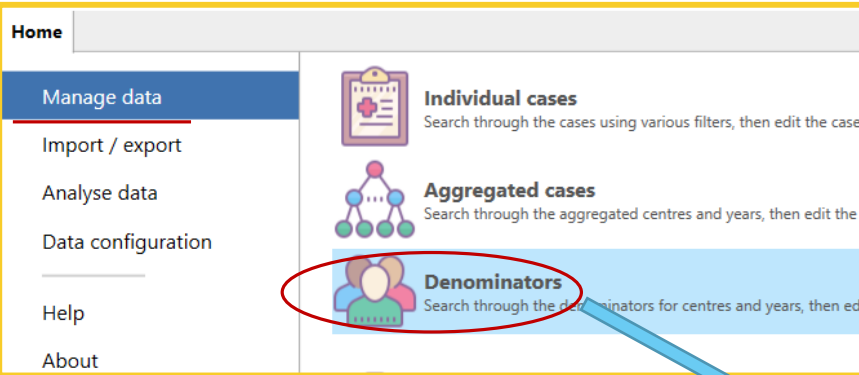

Search denominators

Pressing **Show filters** will show or hide the filters on top of the denominators list.
By default, there are shown.

Select the Centre and the year for which you want to see the denominators, for a quicker selection.

Click on the arrow to display the dropdown list or start typing the name of the registry.
Type the year you wish to display.

Press **Search**, once the filters are positioned

By default, DMS displays the list of all denominators available in the database.

You can also scroll down this list to search for the year you are interested in.

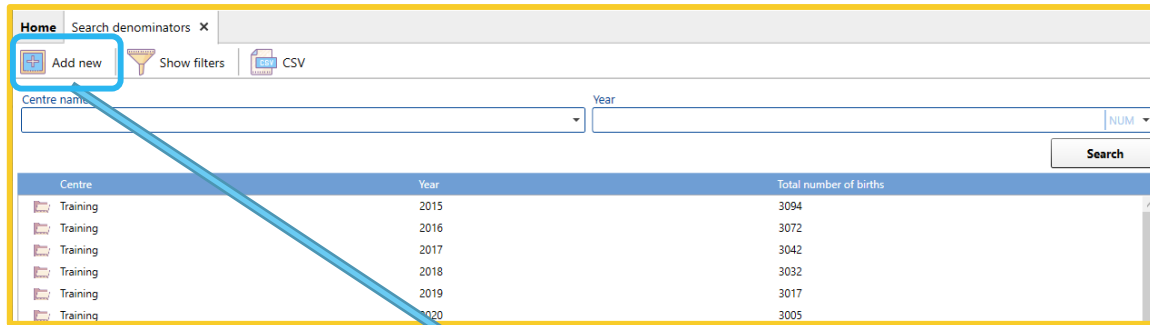

The screenshot shows the 'Search denominators' interface. At the top, there are buttons for 'Add new', 'Show filters' (circled in orange), and 'CSV'. Below these are input fields for 'Centre name' and 'Year'. A green text prompt says 'Enter your search criteria (e.g. Year 2015)'. A 'Search' button is highlighted with a green box. Below the input fields is a table with columns 'Centre', 'Year', and 'Total number of births'. The table contains six rows of data for 'Training' centres across the years 2015 to 2020.

Centre	Year	Total number of births
Training	2015	3094
Training	2016	3072
Training	2017	3042
Training	2018	3032
Training	2019	3017
Training	2020	3005

Manage denominators

Add denominators

In the search tab (see [page 4](#)), click on **Add new** to open an empty form where you can add a new denominator

Once you have filled the form, you can **Save** it by pressing on the save icon.

If you close the tab before saving, DMS will ask if you want to save the pending modifications: choose yes or no depending on what you need.

Reload will revert to an empty form - !!! only before the changes have been saved !!!

Fill the fields in the form for the new entry.

Centre, Year, Live births, Still births and Total births are mandatory. You cannot leave them empty (enter 0 if you do not have the detail live births / still births).

Denominators by **maternal age** or **months** are subject to availability. Denominators by maternal age are however highly recommended.

	Number of births by maternal age		Number of births by month	
	Observed	Adjusted	Observed	Adjusted
Less than 20 years old	<input type="text" value="0"/>	<input type="text" value="0"/>	January	<input type="text" value="0"/>
Between 20 and 24	<input type="text" value="0"/>	<input type="text" value="0"/>	February	<input type="text" value="0"/>
Between 25 and 29	<input type="text" value="0"/>	<input type="text" value="0"/>	March	<input type="text" value="0"/>
Between 30 and 34	<input type="text" value="0"/>	<input type="text" value="0"/>	April	<input type="text" value="0"/>
Between 35 and 39	<input type="text" value="0"/>	<input type="text" value="0"/>	May	<input type="text" value="0"/>
Between 40 and 44	<input type="text" value="0"/>	<input type="text" value="0"/>	June	<input type="text" value="0"/>

Manage denominators

Edit denominators

In the search tab (see [page 4](#)), click on the directory icon to open a tab where you can check and edit the denominators

Home Search denominators x

Add new Show filters CSV

Centre name Year NUM

Search

Centre	Year	Total number of births
Training	2015	3094
Training	2016	3072
Training	2017	3042
Training	2018	3032
Training	2019	3017
Training	2020	3005

Once you have edited the denominator, you can **Save** it by pressing on the save icon.

If you close the tab before saving, DMS will ask if you want to save the pending modifications: choose yes or no depending on what you need.

Reload will revert to the previous initial values - !!! only before the changes have been saved !!!
